## **Food Share or Pandemic EBT Benefits**

### **Update on FoodShare Renewals and Six-Month Reports as of 11/20**

In a continued effort to help protect the health and safety of members during the COVID-19 pandemic, the Wisconsin Department of Health Services (DHS) will be postponing FoodShare renewals and eliminating FoodShare Six-Month Reports that were due in December 2020, January 2021, and February 2021. DHS is able to make these temporary program adjustments due to provisions in the federal Continuing Appropriations Act, 2021 and Other Extensions Act.

FoodShare members who would have had a renewal due in December, January, or February will now need to complete their renewal in June, July, or August 2021. They will receive a renewal letter prior to having to complete their renewal.

Additionally, FoodShare members who would have had a Six-Month Report due in December 2020, January 2021, or February 2021 will not receive a paper report form in the mail and will not need to complete and submit their report.

### **People Receiving Food Share or Pandemic EBT Benefits Can Now Order and Purchase Food Online Using Their QUEST or P-EBT Card**

Starting May 21, 2020, people who receive Food Share or Pandemic EBT (P-EBT) benefits will be able to order and purchase food on Amazon's and Walmart's websites using their QUEST or P-EBT card.

The U.S. Department of Agriculture's Food and Nutrition Service has approved Wisconsin's request to expedite implementation of online food purchasing at authorized retailers for people who receive Food Share or Pandemic EBT benefits. At this time, the Food and Nutrition Service has only authorized Amazon and Walmart to accept online payments in Wisconsin.

### **Purchasing Process**

When purchasing food on Amazon's and Walmart's websites, people will be able to choose an EBT card payment option and enter their card details. They will be asked to enter their card PIN each time they check out.

People can only use their QUEST or P-EBT card to purchase eligible food. If they are ordering other items at the same time, they will be asked to enter another form of payment to purchase those items.

Amazon and Walmart provide more information about the purchasing process on their websites.

If people experience an issue while making an online purchase with their QUEST or P-EBT card, they should first check that they have a balance on their card by going to the ebtEDGE website, using the ebtEDGE mobile app, or calling QUEST Card Service at 877-415-5164. If they have a balance, they should contact Amazon or Walmart customer service for assistance.

### **Delivery:**

Delivery options depend on location. Amazon delivers across the state and offers free shipping on eligible orders over a certain dollar amount. Walmart delivers to certain locations or offers pick up at the store.

Both Amazon and Walmart may charge a delivery fee in some cases. Delivery fees cannot be paid with QUEST or P-EBT cards; they must be paid with another form of payment.

### **Other Purchasing Options:**

Some grocery stores offer other options to help people purchase their food safely and easily. For example, people can order their food online or over the phone, choose an EBT card payment option, and swipe their QUEST or P-EBT card when they pick up their order, either curbside or in store. People should check with their local grocery stores to see what options they offer.

## COLLEGE STUDENTS' FOOD RESOURCES

Are You a College Student Struggling to Afford Food? The latest COVID-19 relief bill changed strict eligibility requirements for college students- allowing more students to qualify for FoodShare (SNAP) benefits. If you're struggling to afford groceries, FoodShare may be able to help. College students with limited income may now qualify. FoodShare work requirements are temporarily waived if students either:

- (1) Eligible for federal or state-funded work study programs during the regular school year - or –
- (2) Have an expected family contribution (EFC) of \$0 during the current academic year

This change helps more students get help from FoodShare who are facing burdens in finding employment during the economic downturn. Not sure if you'd qualify? The best way to find out is to apply.

### Apply for FoodShare

Marketplaces will operationalize functionality to make this SEP available to all Marketplace-eligible consumers who are submitting a new application or updating an existing application. State-based Marketplaces (SBMs) operating their own platform have the opportunity to take similar action within their states.

## **Medication for Opioid Use Disorders Programs 5/12/2020**

### **American Telepsychiatry**

Basic services we provide are: initial psychiatric/SUDs intake, plan of care based on that, medication administration/management, and psychotherapy. We provide services face-to-face. Face to face can be video face-to-face or in-person face-to-face. During the public health emergency, we can also provide services via audio-only connection to the patient in the home. During this emergency, we have developed a very simple intake form. Essentially the client or their advocate would call Susie, she will take down some demographic and medication-related information (i.e., what meds are you currently taking), and then she would schedule the patient. Susie would facilitate the interaction between the patient and the provider on the date of the appointment. The patient needs to have a computer with a webcam and microphone, and internet access. Otherwise, we can do an audio-only session. We accept Medicare, Medicaid, or County pay. We also accept self-pay at the time of service via credit card. Please call 414-376-6053 with questions.

### **CleanSlate**

Through our unique treatment model, CleanSlate brings high-quality medication-assisted treatment, using buprenorphine (Suboxone), naltrexone (Vivitrol), which are all in pill form, as part of an individualized treatment plan led by our trained medical staff. Additionally, our care coordination services help patients find the needed support services such as counseling, childcare, housing and transportation.

# KENOSHA COMMUNITY RESOURCES

As of April 1, 2021

In keeping with social distancing during this pandemic, **we are now conducting all our medical and mental health visits via telehealth.** Call the CleanSlate Kenosha Center at **262-842-0149** for more information or to make an appointment. **Also, new patients are welcome!**

We continue to monitor the COVID-19 situation and will adjust changes to center operations accordingly. Please continue to check our website for the latest at: <https://www.cleanslatecenters.com/>.

## Family Psychiatric Care

At Family Psychiatric Care we have been seeing clients via telepsych during the Safer at Home Order. Clients log into website called *Doxy.me* and see their prescriber through a video chat (similar to Zoom or Facetime--but HIPPA compliant to protect their privacy). Once the Safer at Home Order is lifted, we will slowly transition back to face to face appointments.

We continue to see current patients and are taking new patients at this time. We do prescribe Vivitrol (injection) and oral naltrexone (pill) at our clinic for opioid use disorders. If a client is prescribed Vivitrol we will help set them up at a pharmacy where the injection will be administered. We do not prescribe Suboxone or Methadone and refer out for those services. We are open Monday-Thursday from 08:00 AM-6:00 PM. Clients can call 262-725-4426 to schedule an appointment. Our website is [www.fpckenosha.com](http://www.fpckenosha.com)

## Professional Services Group

The Comprehensive Alcohol and Drug Treatment Program is actively working with a full caseload of participants during the Safer at Home order. **Referrals for new participants are still being accepted during this time.** Possible participants can contact program supervisor Ryan Deglow by phone or email. (262-945-0995 or [rdeglow@psgcp.com](mailto:rdeglow@psgcp.com)) Professional referrals can also contact Ryan during this time for possible referrals. Intakes are coordinated with the assigned recovery specialist as soon as the program can start working with new referrals. The initial intake may require some brief face-to-face contact to obtain necessary signatures for program intake paperwork. At this time, all therapy and group sessions are being done via telehealth. No in-person sessions are being currently offered, as all staff are working from home.

Vivitrol is still the main medication-assisted treatment option CADTP is offering. The initial bloodwork and the Vivitrol injection are being done in coordination with the Kenosha County Division of Health. If Vivitrol is not a viable option, Suboxone can be explored with one of the licensed prescribers through the PSG clinic for participants with opiate use. At this time, the Kenosha County Division of Health is requiring participants to wear a mask during their visits to their clinic.

CADTP is offering services during typical business hours of 8-5pm Monday through Friday, but recovery specialists and therapists are attempting to be as flexible as possible based on participant availability. Groups are also offered during the evening hours for program participants. The Division of Health has more limited availability for scheduling during the Safer at Home order that the assigned recovery specialist will help coordinate.

## Rogers Behavioral Health

Rogers has launched a telehealth treatment platform called Rogers Connect Care, allowing patients to have access to levels of care. Rogers uses Naloxone (Suboxone) and Vivitrol on a case by case basis.
